Thinks

i will inquire with the villagers.

i heard what they said.

There was a time when we wondered whether the crops that did not grow in our town would grow.

i learned a few things from what they said.

i got to know when the teachers were teaching during the school team.

We used to think about the reasons why we could not grow high income crops in our town.

I used think about the agony of farmers not being able to make much profit no matter how hard they work.
